Minutes of Meeting

A meeting was held on 01.02.2023 in Civil Department to discuss the following points

1. Conduction of Add-on Program on QUANTITY SURVEYING for IInd year Students from 06.02.2023 to 19.02.2023.
2. Coordinators of the above Programs must collect the interested students' information and inform them about Add-On programs.
3. Mr.M.BHARATH KUMAR is nominated as Coordinator for the Add On program on QUANTITY SURVEYING, he has instructed to prepare the Design and Development of Curriculum for Add on Programs by 05.02.2023.

The following staff were present for the meeting.

S.No.	Name of the Faculty	Designation	Signature
1	D.CHIRANJEEVI	HOD	
2	G.MADHU KUMAR	Assistant Professor	
3	N.BHAGEERADH	Assistant Professor	
4	J.VENKANNA	Assistant Professor	
5	G P BHASKER	Assistant Professor	
6	B.NAVEEN KUMAR	Assistant Professor

ABOUT COLLEGE

Brilliant Grammar School Educational Society's Group of Institutions - Integrated Campus (Faculty of Engineering & Faculty of Pharmacy) is a highly reputed Institute, established in 2009 with EAMCET Counseling Code BRIG. The college is under the dynamic leadership of the veteran Director, Dr. S PENIEL PAULDOSS, M.Tech (Thermal Engg.), Ph.D and Principal, Dr. CH. KANTLAM, M.Pharm (Pharmaceutical Chemistry), Ph.D, who have more than 17 years of experience in Technical Education.

The Brilliant Group turned a golden leaf with the icon of technical education in Telangana who steered the Engineering education onto the echelons of national and international corridors, a versatile, sagacious genius Sri Kasireddy Narayan Reddy, an eminent and dynamic educationalist of our state, taking reigns as the Chairman of all the colleges in Brilliant Group of Technical Institutions.

He has been leading the Brilliant Grammar High Schools to be among the top-notch schools in our state since 1986. With the same motivation and dynamism, he established the Brilliant Group of Technical Institutions in 2009 and has been constantly upgrading them perpetually to promote a valued technical education in our state.

ABOUT THE DEPARTMENT OF CIVIL ENGINEERING

The department has strong focus in the research areas of transportation systems engineering, Geo Technical engineering, Ocean Engineering, Remote sensing & Construction technology and management. The department of civil engineering has been functioning since 2009 with emphasis on fundamental theory and practice in civil engineering, keeping in view that current and continuously changing scenarios in this discipline. The department offers a full time B.Tech degree course in civil engineering. Apart from conducting academic programs, additional computer courses, seminars and

workshops are conducted for the students as well the faculty. A number of consultancy works are also being carried out. The department was under the affiliated to JNTU, Hyderabad. The department has well experienced faculty. In addition to teaching and instruction, a faculty is also engaged in active research with an aim to generate innovative concepts & ideas or apply the existing technologies to new applications.

OUR VISION

To become a pioneering department in the country for teaching, research and consultancy in existing and emerging areas of civil engineering.

OUR MISSION

- To impart quality and real time education to contribute to the field of civil engineering..
- To impart soft skills, leader ship qualities and professional ethics among the graduates to handle projects independently.
- To develop graduates to compete at the global level.
- To deal with the contemporary issues and to cater to the societal needs.

OBJECTIVES

A Quantity Surveying course typically aims to equip students with a comprehensive set of skills and knowledge related to the field of quantity surveying, which involves the management of costs and contracts within construction and infrastructure projects. The specific objectives of a Quantity Surveying course can vary based on the institution and the level of the course (undergraduate, postgraduate, etc.), but here are some common objectives:

OUTCOMES Quantity Surveying course typically aims to equip students with the knowledge and skills required to effectively manage the financial and contractual aspects of construction projects. The specific outcomes of such a course may vary depending on the institution, level of education (undergraduate, postgraduate, etc.), and the curriculum. However, here are some common outcomes you can expect from a Quantity Surveying course:

SUMMARY REPORT
ON
ADD-ON PROGRAM
QUANTITY SURVEYING (CE-01)
BY CIVIL DEPARTMENT

The Add-on program has successfully been conducted at Brilliant Grammar School Educational Society's Group of Institutions, Abdullapurmet. The program was conducted from **06-02-2023** to **19-02-2023** at CIVIL department, for the Academic Year 2022-23. This program was conducted for all the B.Tech II year CIVIL students during the Academic Year 2022-23. The Program Conducted from 03:00 PM to 06:00 PM daily on topic of "QUANTITY SURVEYING" by **Mr.G.SHYAM KUMAR, Assistant Professor, S R T S T**. Total - 31 students attended the program and the feedback was collected from them. It shown a high impact on students career. I thank all faculty and students of BRIG-IC for successful conduction of the program and special thanks to the speakers of the program. Finally, I thank the technical staff and volunteers for their support. The detailed Brochure and photos are attached here with.

The outcome of the program QUANTITY SURVEYING was:

1. A Quantity Surveying course typically aims to equip students with a comprehensive set of skills and knowledge related to the field of quantity surveying, which involves the management of costs and contracts within construction and infrastructure projects. The specific objectives of a Quantity Surveying course can vary based on the institution and the level of the course (undergraduate, postgraduate, etc.), but here are some common objectives:

QUANTITY SURVEYING (CE - 01)

Exam Date: 19/2/23

Name: Rajiv G

Hall Ticket NO:

9	17	Q	(A	0	1	0	4
---	----	---	---	---	---	---	---	---

87/10

Answer all questions. All questions carry equal marks. Time: 20 min. Marks: 10

- 1: What is the primary role of a Quantity Surveyor (QS) in the construction industry?** (c) ✓
- a) Architectural design b) Project management c) Cost estimation and control d) Structural engineering
- 2: Which of the following is NOT a typical task performed by a Quantity Surveyor?** (c) ✓
- a) Material procurement b) Risk analysis c) Quality control d) Site excavation
- 3: The term "BOQ" in Quantity Surveying stands for:** (a) ✓
- a) Bill of Quantity b) Base of Quality c) Building on Quotation d) Budget of Quantity
- 4: What is the purpose of a "preliminary estimate" in Quantity Surveying?** (b) ✗
- a) To finalize project designs b) To create a detailed construction schedule
c) To assess potential risks and uncertainties d) To calculate final project costs
- 5: "Variations" in Quantity Surveying refer to:** (b) ✗
- a) Changes to the construction schedule b) Differences in construction materials
c) Alterations to the project scope or design d) Fluctuations in labor costs
- 6: Which of the following is NOT a typical cost category in a construction project?** (c) ✓
- a) Direct costs b) Indirect costs c) Variable costs d) Fixed costs
- 7: What is the purpose of the "tendering process" in Quantity Surveying?** (c) ✓
- a) To evaluate project risks b) To select the best construction method
c) To select the most suitable contractor d) To calculate final project costs
- 8: "Depreciation" is a factor considered in Quantity Surveying when estimating the value of:** (c) ✓
- a) Land b) Labor c) Equipment d) Raw materials
- 9: Which of the following documents defines the legal and financial terms of a construction project?** (b) ✓
- a) Bill of Quantities b) Contract c) Schedule of Rates d) Construction Drawings
- 10: The term "life cycle costing" in Quantity Surveying refers to:** (b) ✓
- a) Estimating costs for a single phase of construction b) Calculating costs over the lifetime of a building
c) Estimating costs for maintenance only d) Calculating costs for a specific construction material

Minutes of Meeting

A meeting was held on 29-11-2022 in EEE Department to discuss the following points

1. Conduction of Add on Program on **Reactive Power Compensation and Management** for **B.Tech IV** year students, from **06-12-2022** to **27-12-2022**.
2. Coordinators of above Programs has to collect the information of interested students and inform them about Add-On programs.
3. **Mr. B PARADHA SARADHI** is nominated as Coordinator for the Add On program on **Reactive Power Compensation and Management**, they are instructed to prepare the Design and Development of Curriculum for Add on Programs by 06-12-2022.

The following staffs were present for the meeting.

S.No.	Name of the Faculty	Designation	Signature
1	Mr. K.Lalaiah	HOD

Circular

Add-On Programs for EEE students

All the students of B.Tech. EEE are informed that we are conducting Add-On program on **Reactive Power Compensation and Management (Course code: EEE03)** for IV year students from 06-12-2022 to 27-12-2022. All the EEE students register your name and you have to participate enthusiastically.

The interested students of all years have to contact the program coordinators **Mr. B PARADHA SARADHI** for IV year further information on or before 06-12-2022.

To
The HOD- EEE
Mr. K LALIAH, Associate Professor

Add-On Program

On

REACTIVE POWER COMPENSATION AND MANAGEMENT (COURSE CODE: EEE03)

1.LOAD COMPENSATION: Objectives and specifications, Reactive power characteristics, Inductive and capacitive approximate biasing, Load compensator as a voltage regulator, Phase balancing and power factor correction of unsymmetrical loads.

2.STEADY-STATE REACTIVE POWER COMPENSATION IN TRANSMISSION SYSTEMS: Uncompensated line, Types of compensation, Passive shunt and series and dynamic shunt compensation, Examples. Transient State Reactive Power Compensation In Transmission Systems Characteristic time periods, Passive shunt compensation, Static compensation, Series capacitor compensation, Compensation using synchronous condenser.

3.REACTIVE POWER COORDINATION: Objective, Mathematical modeling, Operation planning, Transmission benefits, Basic concepts of quality of power supply, Disturbances, Steady-state variations, Effect of under-voltages, Frequency, Harmonics, Radio frequency and electromagnetic interference.

4.DEMAND SIDE MANAGEMENT: Load patterns, Basic methods load shaping, Power tariffs, KVAR based tariffs penalties for voltage flickers and Harmonic voltage levels. Distribution Side Reactive Power Management System losses, Loss reduction methods, Examples, Reactive power planning, Objectives, Economics Planning capacitor placement, Retrofitting of capacitor banks.

5.USER SIDE REACTIVE POWER MANAGEMENT KVAR: requirements for domestic appliances, Purpose of using capacitors, Selection of capacitors, Deciding factors, Types of available capacitor, Characteristics and Limitations. Reactive Power Management In Electric Traction Systems And Arc Furnaces Typical layout of traction systems, Reactive power control requirements, Distribution transformers, Electric arc furnaces, Basic operation, Furnaces transformer, Filter requirements, Remedial measures, Power factor of an arc furnace.

ABOUT COLLEGE

Brilliant Grammar School Educational Society's Group of Institutions - Integrated Campus (Faculty of Engineering & Faculty of Pharmacy) is a highly reputed Institute, established in 2009 with EAMCET Counselling Code BRIG. The college is under the dynamic leadership of the veteran Director, S PENIEL PAUL DOSS, M.Tech (Thermal Engg.), Ph.D. who have more than 25 years of experience in Technical Education. The Brilliant Group turned a golden leaf with the icon of technical education in Telangana who steered the Engineering education onto the echelons of national and international corridors, a versatile, sagacious genius Sri Kasireddy Narayan Reddy, an eminent and dynamic educationalist of our state, taking reigns as the Chairman of all the colleges in Brilliant Group of Technical Institutions.

ABOUT THE DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

Electrical Engineering is one of the branch oldest branches from time immemorial. The Department of Electrical and Electronics Engineering was started in 2008 with an intake of 120 students. The Department is equipped with latest equipment and experimental setups in the laboratories to help in teaching learning Process. The Electrical and Electronics Engineering graduates are groomed in subject knowledge like Electrical Machines, Power Electronics, power systems, control system, etc and technical knowledge through coursework that is relevant to current technology; they develop the ability to synthesize and envisage solution to real time problems through their immersion in the problem based activities.

Our Vision

To prepare graduates for a rapidly changing technological field and the faculty is to strive continuously in pursuit of excellence in education, research and train the students in a technically sound and challenging manner to pursue professional careers and to solve problems relevant to the best industrial practice of Electrical and Electronics Engineering design.

Our Mission

The Department of Electrical and Electronics Engineering provides a progressive environment for learning through systematic teaching methodologies, rigorous practical training and contemporary curriculum.

Actively engage and mentor students in scholarly and creative endeavors to develop the ability to navigate through a rapidly changing technology and society.

Faculty dedicate through excellence in teaching, exemplified by a free exchange of ideas, fostering new understandings through research and creativity.

OBJECTIVES

The reactive power compensation corresponds to the controlling of reactive power to increase the performance characteristics of the AC system. There are some methods by which the power factor of the system can be improved and hence these are regarded as methods of reactive power compensation.

OUTCOMES

1. Analyze the relationship between power factor and reactive power.
2. Describe methods to improve power factor in electrical systems.
3. Evaluate the advantages and disadvantages of various reactive power compensation techniques, such as capacitor banks, synchronous condensers, and static VAR compensators (SVCs).
4. Understand the impact of reactive power on voltage regulation in power systems.
5. Explain the role of voltage regulators and tap changers in maintaining system voltage within acceptable limits.
6. Understand the challenges and solutions for integrating reactive power compensation into the electrical grid.

REGISTRATION FORM

A 3-WEEKS ADD ON PROGRAMME ON REACTIVE POWER COMPENSATION AND MANAGEMENT 06-12-2022 to 27-12-2022

Name: Mr/Mrs:.....

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

Objective Exam ADD-ON PROGRAM FOR IV YEAR A.Y: 2022-23

REACTIVE POWER COMPENSATION AND MANAGEMENT (COURSE CODE:EEE03)

Exam date:

Name: C. Saibumal

H.T NO

1	8	4	0	5	A	0	2	1	4
---	---	---	---	---	---	---	---	---	---

Answer All Questions. All Questions Carry Equal Marks.

Time: 20 Min. Marks: 10

- What is the primary function of reactive power compensation in an electrical power system?
a) To improve power factor b) To increase active power generation
c) To reduce voltage levels d) To minimize transmission losses
[a]
- Which device is commonly used for static reactive power compensation in power systems?
a) Transformers b) Capacitors c) Generators d) Circuit breakers
[b]
- Which of the following is a measure of the effectiveness of reactive power compensation in improving power factor?
a) Apparent power b) Real power c) Power factor angle d) Reactive power
[c]
- In a capacitive power factor correction system, how does the power factor angle change after compensation?
a) It increases b) It decreases c) It remains the same d) It becomes negative
[b]
- When is overcompensation of reactive power a concern in power systems?
a) It is never a concern b) During light load conditions
c) During heavy load conditions d) During balanced load conditions
[c]
- What is the unit of measurement for reactive power?
a) Watts (W) b) Volt-amperes (VA) c) Volt-amperes reactive (VAR) d) Hertz (Hz)
[c]
- Which of the following devices is used for dynamic reactive power compensation and voltage regulation?
a) Synchronous condenser b) Surge protector
c) Power factor relay d) Distribution transformer
[a]
- What does a power factor of 1 indicate?
[c]

DIRECTOR-IC

- a) An entirely resistive load b) An entirely inductive load
c) Perfectly balanced loads d) A purely capacitive load
9. Which type of load typically requires more reactive power compensation? [a]
a) Industrial motors b) Incandescent lighting c) Electronic devices d) Heating elements
10. What is the main benefit of effective reactive power management in a power system? [b]
a) Reduced energy consumption b) Improved power quality
c) Lower transmission line losses d) Increased voltage levels

Department of Computer Science and Engineering

Date: 26-09-2022

(2022-2023)

Minutes of Meeting

A meeting was held on 26-09-2022 in CSE Department to discuss the following points:

- 1) Conduction of **Add on Program on Web Intelligence And It's Applications** for B.Tech III-I year, **Add on Program on Genetic Algorithms and its applications, Data Centric Networks** for IV-I year from 10-10-2022 TO 01-11-2022.
- 2) Coordinators of above programs has to collect the information of interested students and inform to them about Add-on Program.
- 3) **Mrs. Y. UMA** is nominated as coordinator for **Add on Program on Web Intelligence And It's Applications**, **Mr. A.RAGHAVENDRA RAO** is nominated as coordinator for the **Add on Program on Genetic Algorithms and its applications** and **Mrs. T. NEELIMA** is nominated as coordinator for the **Add on Program on Data Centric Networks**, they are instructed to prepare the design and Development of Curriculum for Add on program by 30-09-2022.

The following staff members were present for the meeting:

S.NO	Name of the faculty	Designation	Signature
1	Dr.D. PAVAN KUMAR(PROFESSOR)	HOD	
2	A.RAGHAVENDRA RAO	ASSOCIATE PROFESSOR	
3	B. DURGABHAVANI	Assistant Professor	
4	T. NEELIMA	Assistant Professor	
5	G.HARIKA	Assistant Professor	
6	Y. UMA	Assistant Professor

CIRCULAR

ADD-ON PROGRAM FOR CSE III,IV YEAR STUDENTS

All the students of B. Tech (CSE) are informed that we are conducting **Add-On Programs** on "Web Intelligence And It's Applications (Course Code:)" for III-year, Genetic Algorithms and its applications (course code :), Data Centric Networks for IV year from 10-10-2022 TO 01-11-2022 from 4:00 PM to 6:00 PM for the benefit of the students to enhance their technical knowledge and skills.

The interested CSE students of all years have to contact the Program coordinators **Mrs. Y. UMA** for III year, **Mr. A.RAGHAVENDRA RAO**, **Mrs. T. NEELIMA** for IV Year Students further information on before 30-09-2022.

To

The HOD-CSE (To inform all the students of B. Tech (CSE))

Mrs. Y. UMA, Assistant Professor, CSE & III Year Program coordinator

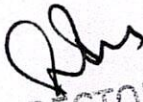

Mr. A.RAGHAVENDRA RAO, Associate Professor, CSE & IV Year Program coordinator

Mrs. T. NEELIMA, Assistant Professor, CSE & IV Year Program coordinator

Sub:- Request for conducting the Add on Program on Genetic Algorithms and its applications for B.Tech (CSE) IV year students – Reg.

Respected Sir / Madam,

The Department of Computer Science & Engineering is proposing to conduct an Add on Program on Genetic Algorithms and its applications for B.Tech. CSE - IV year students from 10-10-2022 TO 01-11-2022.

We request for your kind acceptance to conduct this program with the following details.

Branch	Topic	Date	Time	Resource Person
B.Tech(CSE) IV year	Genetic Algorithms and It's Applications	10-10-2022 TO 01-11-2022	4.00 – 6.00 P.M.	M. PRABHAKAR

Thanking You Sir

Genetic Algorithms and its applications(Course Code:CS2202)
IV Year (A.Y 2022-23)
SYLLBUS

UNIT I

Pre-Requisite: Nil Introduction to Evolutionary Computation: Biological and artificial evolution, evolutionary computation and AI, different historical branches of EC, a simple genetic algorithm.

UNIT II

Search Operators: Crossover, mutation, crossover and mutation rates, Crossover for real-valued representations, mutation for real-valued representations, combinatorial GA, Selection Schemes: Fitness proportional selection and fitness scaling, ranking, tournament selection, selection pressure and its impact on evolutionary search.

UNIT III

Theoretical Analysis of Evolutionary Algorithms: Schema theorems, convergence of the algorithms, computational time complexity of the algorithms, no free lunch theorem.

UNIT IV

Search Operators and Representations: Mixing different search operators, adaptive representations. Nicheing and Speciation: Fitness sharing, crowding and mating restriction. Constraint Handling: Common techniques, penalty methods, repair methods, Deb's penalty parameter method.

UNIT V

Multiobjective evolutionary optimization: Pareto optimality, multi-objective evolutionary algorithms: MOGA, NSGA-II, etc. Applications of GA in engineering problems, job-shop scheduling and routing problems.

ABOUT COLLEGE

Brilliant Grammar School Educational

Society's Group of Institutions -

Integrated Campus (Faculty of

Engineering & Faculty of Pharmacy) is

a highly reputed Institute, established in

2008 with EAMCET Counseling

Code **BRIG**. The college is under the

dynamic leadership of the

veteran **Director, Dr. S PENIEL PAUL**

DOSS, M.Tech (Thermal Engg.),

Ph.D and Principal, Dr. D. SATYAVATI,

M.Pharm (Pharmacology), Ph.D, who

have more than 25 years of experience

in Technical Education.

**ABOUT THE DEPARTMENT OF
COMPUTER SCIENCE AND
ENGINEERING**

The Department of Computer

Science and Engineering

Department of grooms the

young minds in both

fundamentals of computation

and computer's interaction

with the world. Computer

Science Engineers develop

new algorithms, invent new

systems and theories that

empower people and society,

and advance the science of

computing around the world

and beyond.

Our Vision

To be an eminent center of excellence in the field of computer Science & Engineering, where teaching, learning and research synergize to deliver technical education and scientific research for public good.

Our Mission

To impart quality education to create efficient computer Science & Engineering who can compete at the global level.

To build State-of-the-art research facilities in computer Science & Engineering in order to enable the faculty and students to learn and disseminate knowledge and innovate in their applications.

To foster the spirit of entrepreneurship and encourage consultancy to enable all round personality development in students.

OBJECTIVES:

1. Genetic algorithms are commonly used to generate high-quality solutions to optimization.
2. Search problems by relying on biologically inspired operators such as mutation, crossover and selection

OUTCOMES

- 1) To optimize schedules and design products that range from large aircraft to tiny computer chips to medicines.
- 2) To analyze the data from satellites.
- 3) To learn Many applications for genetic algorithms in the financial sector, such as identifying fraud and predicting market fluctuations.

Answer all Questions. All Questions Carry Equal Marks. Time: 20 Min. 10 Marks.

1. What is the primary mechanism by which Genetic algorithms simulate biological evolution?
A) Mutation B) Crossover C) Selection D) All of the above
2. In the context of Genetic Algorithms, what does fitness evaluation refer to?
A) Measuring the genetic diversity B) Assessing how well a solution solves the problem
C) Selecting parents for reproduction D) Introduction random changes in the population
3. Which of the following is NOT a typical application of Genetic Algorithms?
A) Optimization problems B) Neural networks training C) Sorting algorithms D) Scheduling tasks
4. What role does the crossover operation play in Genetic Algorithms?
A) It introduces mutations in the population.
B) It combines parts of two parent solutions to create offspring.
C) It selects the best individuals for the next generation.
D) It evaluates the fitness of the population.

5. Which of the following parameters is crucial for the performance of a Genetic Algorithm? [C]
- A) Population size B) Selection method C) Mutation rate D) All of the above
6. Which of the following best describes the concept of "elitism" in Genetic Algorithms? [B]
- A) Randomly selecting individuals for the next generation
B) Keeping a certain number of the best individuals unchanged for the next generation
C) Introducing new individuals to enhance diversity D) Evaluating all individuals equally
7. In a Genetic Algorithm, what is the purpose of the mutation operation? [B]
- A) To combine genetic information from two parents
B) To maintain diversity within the population by making random changes
C) To select the best individuals for reproduction D) To eliminate poorly performing solutions
8. Which of the following statements about Genetic Algorithms is TRUE? [C]
- A) They guarantee finding the optimal solution every time.
B) They are deterministic and produce the same output each run.
C) They can handle multi-modal optimization problems effectively.
D) They require a fixed number of generations to converge.
9. In which area have Genetic Algorithms been successfully applied? [D]
- A) Stock market analysis B) Image processing C) Robotics and pathfinding D) All of the above
10. How does a Genetic Algorithm typically represent potential solutions? [A]
- A) As binary strings or arrays B) As decision trees C) As linear equations D) As graphs

- B) To maintain diversity within the population by making random changes
- C) To select the best individuals for reproduction D) To eliminate poorly performing solutions
8. Which of the following statements about Genetic Algorithms is TRUE? [C]
- A) They guarantee finding the optimal solution every time.
- B) They are deterministic and produce the same output each run.
- C) They can handle multi-modal optimization problems effectively.
- D) They require a fixed number of generations to converge.
9. In which area have Genetic Algorithms been successfully applied? [D]
- A) Stock market analysis B) Image processing C) Robotics and pathfinding D) All of the above
10. How does a Genetic Algorithm typically represent potential solutions? [B]
- A) As binary strings or arrays B) As decision trees C) As linear equations D) As graphs

Answer all Questions. All Questions Carry Equal Marks. Time: 20 Min. 10 Marks.

1. What is the primary mechanism by which Genetic algorithms simulate biological evolution? [D]
A) Mutation B) Crossover C) Selection D) All of the above
2. In the context of Genetic Algorithms, what does fitness evaluation refer to? [B]
A) Measuring the genetic diversity B) Assessing how well a solution solves the problem
C) Selecting parents for reproduction D) Introduction random changes in the population
3. Which of the following is NOT a typical application of Genetic Algorithms? [B]
A) Optimization problems B) Neural networks training C) Sorting algorithms D) Scheduling tasks
4. What role does the crossover operation play in Genetic Algorithms? [B]
A) It introduces mutations in the population.
B) It combines parts of two parent solutions to create offspring.
C) It selects the best individuals for the next generation.
D) It evaluates the fitness of the population.

5. Which of the following parameters is crucial for the performance of a Genetic Algorithm? [D]
A) Population size B) Selection method C) Mutation rate D) All of the above
6. Which of the following best describes the concept of "elitism" in Genetic Algorithms? [B]
A) Randomly selecting individuals for the next generation
B) Keeping a certain number of the best individuals unchanged for the next generation
C) Introducing new individuals to enhance diversity D) Evaluating all individuals equally
7. In a Genetic Algorithm, what is the purpose of the mutation operation? [B]
A) To combine genetic information from two parents
B) To maintain diversity within the population by making random changes
C) To select the best individuals for reproduction D) To eliminate poorly performing solutions
8. Which of the following statements about Genetic Algorithms is TRUE? [C]
A) They guarantee finding the optimal solution every time.
B) They are deterministic and produce the same output each run.
C) They can handle multi-modal optimization problems effectively.
D) They require a fixed number of generations to converge.
9. In which area have Genetic Algorithms been successfully applied? [D]
A) Stock market analysis B) Image processing C) Robotics and pathfinding D) All of the above

SUMMARY REPORT

ADD-ON PROGRAM

Genetic Algorithms and its applications

The Add-on Program is successfully conducted at Brilliant Grammar School Educational Society's Group of Institutions, Abdullapurmet . The program was conducted from 10-10-2022 TO 01-11-2022 at CSE department, for the Academic Year 2022-23, for B. Tech students of IV Year from 04:00 PM to 06:00 PM daily on topic of "Genetic Algorithms and its applications" by the resource person **M. PRABHAKAR, ASSOCIATE PROFESSOR, CSE Dept.,** Total 79 students were attended the program. Exam has been conducted to the students on the last day of the Program and feedback was collected from them. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of BRIG-IC for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

The outcome of the program on Genetic Algorithms and its applications:

By completing the course the students will be able:

- 1) To optimize schedules and design products that range from large aircraft to tiny computer chips to medicines.
- 2) To analyze the data from satellites.
- 3) To learn Many applications for genetic algorithms in the financial sector, such as identifying fraud and predicting market fluctuations.

DEPARTMENT OF ELECTRICAL AND ELCTRONICS ENGINEERING

Objective Exam ADD-ON PROGRAM FOR IV YEAR A.Y: 2022-23

REACTIVE POWER COMPENSATION AND MANAGEMENT (COURSE CODE:EEE03)

Exam date:

Name: M. Rakesh

H.T NO

1	9	7	Q	1	A	0	2	1	7
---	---	---	---	---	---	---	---	---	---

Answer All Questions. All Questions Carry Equal Marks.

Time: 20 Min. Marks: 10

- What is the primary function of reactive power compensation in an electrical power system?
 a) To improve power factor b) To increase active power generation
 c) To reduce voltage levels d) To minimize transmission losses
[a]
- Which device is commonly used for static reactive power compensation in power systems?
 a) Transformers b) Capacitors c) Generators d) Circuit breakers
[b]
- Which of the following is a measure of the effectiveness of reactive power compensation in improving power factor?
 a) Apparent power b) Real power c) Power factor angle d) Reactive power
[c]
- In a capacitive power factor correction system, how does the power factor angle change after compensation?
 a) It increases b) It decreases c) It remains the same d) It becomes negative
[b]
- When is overcompensation of reactive power a concern in power systems?
 a) It is never a concern b) During light load conditions
 c) During heavy load conditions d) During balanced load conditions
[c]
- What is the unit of measurement for reactive power?
 a) Watts (W) b) Volt-amperes (VA) c) Volt-amperes reactive (VAR) d) Hertz (Hz)
[c]
- Which of the following devices is used for dynamic reactive power compensation and voltage regulation?
 a) Synchronous condenser b) Surge protector
 c) Power factor relay d) Distribution transformer
[a]
- What does a power factor of 1 indicate?
[c]

DIRECTOR-IC
Brilliant Grammar School Educational
Society's Group of Institutions (7Q)
Abdullapurmet (V&M), R.R. Dist-501 505

a) An entirely resistive load b) An entirely inductive load

c) Perfectly balanced loads d) A purely capacitive load

9. Which type of load typically requires more reactive power compensation?

[]

a) Industrial motors b) Incandescent lighting c) Electronic devices d) Heating elements

10. What is the main benefit of effective reactive power management in a power system?

[]

a) Reduced energy consumption

b) Improved power quality

c) Lower transmission line losses

d) Increased voltage levels

ADD-ON PROGRAM

REACTIVE POWER COMPENSATION AND MANAGEMENT (EEE03)

The Add-on Program is successfully conducted at Brilliant Grammar School Educational Society's Group of Institutions, Abdullapurmet . The program was conducted from 06-12-2022 to 27-12-2022. at EEE department, for the Academic Year 2022-23. This program was conducted for all the B. Tech students of IV Year during the Academic Year 2022-23 from 04:00 PM to 06:00 PM daily on topic of "Reactive Power Compensation and Management (EEE03)" by the resource person Mr. D RAMESH, Associate Professor BRIG-IC. Total-58 students attended the program. Exam was conducted to the students on the last of the Program and feedback was collected from them. It has a high impact to improve the skills that can help the student in their career. I thank all faculty and students of BRIG-IC. for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

The outcome of the program Reactive Power Compensation and Management was:

1. Analyze the relationship between power factor and reactive power.
2. Describe methods to improve power factor in electrical systems.
3. Evaluate the advantages and disadvantages of various reactive power compensation techniques, such as capacitor banks, synchronous condensers, and static VAR compensators (SVCs).
4. Understand the impact of reactive power on voltage regulation in power systems.
5. Explain the role of voltage regulators and tap changers in maintaining system voltage within acceptable limits.
6. Understand the challenges and solutions for integrating reactive power compensation into the electrical grid.
