

Author's Profile

RADHA KRISHNAAN, is currently working as Assistant Professor, in the department of Electronics & Communication Engineering in Brilliant Grammar School Educational Society's Group of Institutions since 10 Years. He previously associated with Avanathi Group of Institutions. He has over 13 Years of Teaching Experience. He is pursuing his PhD from Sri Satya Sai University of Technology & Medical Sciences, Sehore, Bhopal, Madhya Pradesh. He has completed his Bachelors Degree and Masters Degree from Avanathi Group of Institutions, JNTUH in 2009 & 2013 respectively. He has published international Scopus indexed papers and more than 10 national and international papers. He has attended many workshops related to Research Methodologies, EMBEDDED SYSTEMS & VLSI Design. He, as a student, awarded Gold Medal from ISM, Bangalore in a State Level Talent Test conducted in the year 2008. He, as a student, was the IEEE Member and he carried out many technical activities in his college as SECRETARY for IEEE Student branch.

Dr. E. RADHAMMA, currently working as Assistant Professor in the in the BRILLIANT INSTITUTE OF ENGINEERING AND TECHNOLOGY, Abdullapurmet, Telangana, She completed her B.Tech in Electronics & Communication Engineering from Madras Institute of Technology, Chennai. She did her M.Tech in Digital Electronics & Communication Systems from JNTU College of Engineering, Hyderabad. She did her Ph.D. from OPJS University, Churu, in Wireless Communications. She has years of teaching experience in various reputed engineering colleges Across the state. She has published more than research papers in international journals and presented research papers in international/national conferences/seminars/symposiums. Having 20 years of experience in Academics, 12 Years of teaching experience for both B.Tech and M.Tech dealing various subjects like EDC, ECA, AE,AC, SC, CMC, LICA, DICA, LDICA, DE, STLD, MWE and etc., 7 Years of Experience of Head of Department at various Engineering Colleges across the State of Telangana.

M. VARASUNDAR is having more than 13 years of teaching Experience and currently serving as ASST PROFESSOR in the KASIREDDY NARAYANA REDDY COLLEGE OF ENGINEERING & RESEARCH of E.C.E DEPT At Abdullapur Mettu, Telangana, and mentoring experience for Engineering graduates and he presented 4 papers in national journals. He completed His Mtech from JNTU University.

Dr. G. SAI KUMAR received Ph. D from V.B.S.PURVANCHAL UNIVERSIRY JAUNPUR He received M.Tech from VEC Shamshabad Hyderabad. He received B.Tech from MGIT Hyderabad. He published 20 papers in national and international journals. His area of interest is Communication systems, Digital Signal Processing, Image Processing and Microwave Engineering.

Acknowledgment

First and foremost, praises to God, the Almighty, for his immense shower of blessing and kindness throughout the work and has allowed us to finish successfully.

We are sincerely grateful to our Institution Management, Director, Principal, Faculties, Students, and all our family members for providing continuous support and motivation during the work.

We would also like to take the opportunity to express our special thanks of gratitude to the publisher for providing a golden chance by giving us the most awaited platform to showcase our novel work.

Any attempt at any level can't be satisfactorily completed without our students' collaborative effort, resulting in our Book being unique.

Preface

Antenna is an essential terminal device in all types of communication and radar systems. Without an antenna, there would be no communication. So, the study of antennas and their field patterns is an important aspect of understanding many applications of wireless transmission technology. Keeping such things in mind, the material in the book is organised into five parts.

Chapter 1 provides the fundamental concept of Electromagnetic (EM) wave radiation and basic terminology involved in antennas to describe radiation and input characteristics. The concept of dipoles and yagi-array are also clearly explained. Chapter 2 emphasis various antennas and antenna array concepts. Particularly in chapter 2, deals with aperture antennas and slot antennas with its application. Various feeding structures are also explained in later part of the chapter. Chapter 3 incorporates the concept of Antenna arrays along with antenna synthesis techniques. Chapter 4 devoted a special class of antennas designed especially for specific requirement. This chapter deals such antennas namely frequency independent antennas and modern antennas. The second part of the chapter deals with procedure and methods for measuring antenna parameters. Chapter 5 focused on the modes of propagation and the structure of atmosphere. This chapter extends to the effect of the earth and the troposphere on the propagation of electromagnetic waves is considered in detail. This is followed by an exposition of the nature of the ionosphere and its effect on sky wave propagation.

SYLLABUS

UNIT I FUNDAMENTALS OF RADIATION

Definition of Antenna parameters - Gain, Directivity, Effective Aperture, Radiation Resistance, Band width, Beam width, Input Impedance. Matching - Baluns, Polarization Mismatch, Antenna Noise Temperature, Radiation from Oscillating Dipole, Half Wave Dipole. Folded Dipole, Yagi Array.

UNIT II APERTURE AND SLOT ANTENNAS

Radiation from Rectangular Apertures, Uniform and Tapered Aperture, Horn Antenna, Reflector Antenna, Aperture Blockage, Feeding Structures, Slot Antennas, Microstrip Antennas - Radiation Mechanism - Application, Numerical Tool for Antenna Analysis

UNIT III ANTENNA ARRAYS

N Element Linear Array, Pattern Multiplication, Broadside and End fire Array - Concept of Phased Arrays, Adaptive array, Basic principle of antenna Synthesis-Binomial array

UNIT IV SPECIAL ANTENNAS

Principle of Frequency Independent Antennas - Spiral Antenna, Helical antenna, Log Periodic. Modern Antennas - Reconfigurable Antenna, Active Antenna, Dielectric Antennas, Electronic Bandgap Structure and Applications, Antenna Measurements - Test Ranges, Measurement of Gain, Radiation Pattern, Polarization, VSWR.

UNIT V PROPAGATION OF RADIO WAVES ANTENNA AND WAVE PROPAGATION SYLLABUS

Modes of Propagation, Structure of Atmosphere, Ground wave Propagation, Tropospheric Propagation, Duct Propagation, Troposcatter Propagation, Flat earth and Curved earth concept Sky wave propagation - Virtual height, Critical Frequency, Maximum usable frequency - Skip Distance, Fading, Multi hop Propagation

Author's Profile

Mr. G. MADHU KUMAR, Assistant Professor, Department of Civil Engineering, he is having more than 4 years of teaching experience in Brilliant Grammar School Educational Society's Group of Institutions. He has obtained M.Tech. in Structural Engineering from JNTU Hyderabad and B.Tech. in Civil from JNTU Hyderabad.

Mr. N. SRAVAN currently working as Assistant Professor in KASIRAJU NARAYANRAJU COLLEGE OF ENGINEERING AND RESEARCH, Abulnagar, Telangana, he completed B.Tech from JNTU and M.Tech from JNTU affiliated College he has been serving more than 4 years for KASIRAJU NARAYANRAJU COLLEGE OF ENGINEERING AND RESEARCH. In his 4 years of experience he published 2 national articles in Journals. He has Guided Under Graduate Level and Post Graduate Level Students for their projects. In his tenure, he has successfully completed 10+ projects on various domains.

Mr. M. SATHISH REDDY currently working as Assistant Professor BRILLIANT INSTITUTES OF ENGINEERING & TECHNOLOGY, Abulnagar, Telangana, he completed B.Tech from JNTU and M.Tech from JNTU affiliated College. He has been serving more than 4 years for BRILLIANT INSTITUTES OF ENGINEERING & TECHNOLOGY. In his 4 years of experience he published 2 national articles in Journals. He has Guided Under Graduate Level and Post Graduate Level Students for their projects. In his tenure, he has successfully completed 10+ projects on various domains.

Dr. V. V. S. MURTHY has acquired his PhD from Indian Institute of Technology. During his Research includes Strength & Behavior of Light Gauge Steel and Composite Structures. He finished his Post Graduation in Structural Engineering from Regional Institute of Technology, Kanchi and B.E degree in Civil Engineering from JNTU Kachana. His area of Research includes Steel and composite structures. He has over twenty years of teaching experience in numerous reputed institutions in and around Hyderabad. Currently, he's working as Professor at Siddhartha Institute of Engineering & Technology, Ibrahimpatnam, Banga Reddy District, Telangana, India. He has acquired expertise in software associated with the modern technologies of civil engineering. He has delivered guest lectures to various institutions on Emerging subjects and current developments in Civil Engineering. He has published articles in Five Scopus indexed journals, 12 IJEC referred journals and One Web of science journal. He has dealt with numerous projects and a few are under progress. He is a member of four professional bodies, viz. IIT, IRC, ISTAE and INVAST.

Author's Profile

MR. SEELAM JAYADEVA REDDY (PH.D), has qualified in Master of Business Administration from the prestigious Jawaharlal Nehru Technological University, Hyderabad, and also qualified in Master Programme in commerce. Presently, he is Head of the Department of MBA, designated as Associate Professor at the Department of Business Administration at Kasireddy Narayan Reddy College of Engineering and Research, affiliated to Jawaharlal Nehru Technological University, Hyderabad. He is pursuing PhD from JNTU University-Rajasthan since 2016. He is actively involved in various institutional developmental activities from time to time and contributed significantly for the development of the institution. There are certain number of publications to his credit.

Mrs. G. SRIVANI is having 9 years of teaching experience and currently working as Assistant Professor in Humanities and Sciences Department at Brilliant Grammar School Educational Society's Group of Institutions-Integrated Campus, Abdullapurmet, Telangana. She had worked formerly in Nova College of Engineering and Technology. She had completed Master's Degree in Business Administration from Osmania University affiliated college. She has presented various papers in conference and symposiums.

Mr. K. VENKATESWARA REDDY, he is a young, decent, dynamic Renowned Educationist and Eminent Academician has overall 12 years of teaching Experience and currently serving as HOD and ASSISTANT PROFESSOR in the BRILLIANT INSTITUTE OF ENGINEERING AND TECHNOLOGY, Abdullapur (V), Abdullapurmet (M), RR Dist-501505 and mentoring experience for graduates. He has published more than 8 articles in various national and international journals and presented papers in national and international conferences too. **Mr. K. VENKATESWARA REDDY** is pursuing PhD from JNTU University - Rajasthan since 2016. He completed his MBA from JNTUH affiliated College and did his M.COM from Osmania University. He is consistently working in same college from past 12 Years He has Guided Post Graduate Level Students for their projects. In his tenure, he has successfully completed 95+ projects on various domains.

DR. D. ROSE MARY is having more than 10 years of teaching and research experience. She was UGC post doctoral fellow from Sri Krishnadevaraya University, Anantapur. She is awarded Doctor of Philosophy in the specialisation of Human Resource Management from Sri Krishnadevaraya University, Anantapur, and published more than 18 articles in reputed national and international journals. She also participated in several National and international conferences, workshops, seminars and Faculty Development Programs. Dr. D. Rose Mary is currently serving as Professor in the Department of Management Studies, Sidhartha Institute of Engineering and Technology, Vinobha Nagar, Ibrahimpatnam, Telangana.

PREFACE

I feel encouraged by the widespread response from teachers and students alike to the first edition. I am presenting thoroughly revised and enlarged, to my readers in all humbleness. All possible efforts have been made to enhance further the usefulness of the book. The feedback received from different sources has been incorporated.

This book on **Supply Chain and Logistics Management** my ambition in life is to publish a book on **Supply Chain and Logistics Management**. This is a wonderful subject, but unfortunately remained an anathema for several courses. From my interaction with the students I could understand that the reason for fearing this subject is the difficulty in comprehending the subject matter. Further, the language used in the books on this subject is reported to be very complex. So the basic objective kept in mind while preparing this book was to present the subject matter in a very simple and lucid language. As part of simplification effort, throughout the text, a number of examples have been given to make the understanding easy.

The distinguishing feature of this book is that the subject matter has been introduced in a gradual manner and at the end of each chapter short answer type questions and essay type questions have been given in such a manner that the students can easily understand the subject matter in depth. This will be more useful to the students who aspire for competitive examinations. Moreover, to test the understanding of the students and to have sufficient practice, have also been given at the end of each chapter. I hope this book will be highly useful to the students of Commerce and Management.

DIRECTOR

Educational Society's Group
of Institutions-Integrated Campus (70)
Abdullapur (V), Abdullapurmet (M),
R.R. Dist-501505.

Considering the importance of the **Supply Chain and Logistics Management** most Universities have included "**Supply Chain and Logistics Management**" as one of the subjects in their Graduate Programmes such as B.Com. B.Com.(CA), M.Com.(CA), BBA., and MBA., (Management and Commerce).

This book provides strong conceptual framework for the study and understanding of the various aspects of **Supply Chain and Logistics Management**. I hope that the book would be useful to students, teachers and the Supply Chain and Logistics Management.

I register my profound sense of gratitude to the professors for their co-operation and encouragement in writing this book and also for familiarizing this book among the students.

SYLLABUS

CHAPTER – I

Introduction to Supply Chain Management (SCM): Concept of SCM – Components – Features – Strategic issues in SCM, The Supply Chain Revolution - Customer focus in SCM , Demand Planning, Purchase Planning – Make or Buy Decision – Indigenous and Global Sourcing, Development and Management of Suppliers – Legal Aspect of Buying – Cost Management- Negotiating for Purchasing and Sub Contracting – Purchase Insurance – Evaluation of Purchase Performance.

CHAPTER – II

Manufacturing Scheduling: Manufacturing Flow System – Work Flow Automation – Flexibility in Manufacturing to Achieve Dynamic Optimization, Material Handling System Design and Decision, Strategic Warehousing – Warehousing Operations – Warehousing Ownership Arrangements – Warehouse Decisions.

CHAPTER – III

Logistics: The Logistics of Business – The Logistical Value Proposition – The Work of Logistics – Logistical Operating Arrangements – Flexible Structure – Supply Chain Synchronisation, Transport Functionality, Principles and Participants – Transportation Service – Transportation Economics and Pricing – Transport Administration - Documentation.

DIRECTOR
Brilliant Grammar School
Educational Society's Group
of Institutions-Integrated Campus (701)

CHAPTER – IV

Information Technology and SCM: Information System Functionality – Comprehensive Information System Integration – Communication Technology – Rationale for ERP Implementation – ERP System Design – Supply Chain Information System Design – Enterprise Facility Network – Warehouse requirements – Total Cost Integration – Formulating Logistical Strategy.

CHAPTER – V

International Logistics and Supply Chain Management: Meaning and Objectives, Importance in Global Economy, Characteristics of Global Supply Chains, Global Supply Chain Integration – Supply Chain Security – International Sourcing - Role of Government in Controlling International Trade and its Impact on Logistics and Supply Chain.

Author's Profile

THYSIN, SYED received her B.TECH degree in CSE from The Vastu Sultan College of Engineering, V. V. Kelam, Elammanam (Dt), in 2012, the M.TECH. Degree in CS from Saurma Bharathi Institute of Science and Technology Khammam in 2015, she is pursuing her Ph.D. from Saurma University. And is having 7 years of teaching experience. She has published more than Three research articles in reputed International, National Journals and presented papers in International, National Conferences and, She is a life member of CSI and IAENG.

Mrs. CHINMI HIMABINDHU is having more than 7 years of teaching Experience and currently serving as Assistant Professor in Computer Science & Engineering Department at Brilliant Grammar school Educational Society's Group of Institutions -IC, Abdullapurmet, Telangana. She completed M.Tech (CSE) from JNT University, Hyderabad.

Mr. G. SHEKAR (M.Tech), Assistant Professor, he has been Completed B.Tech in CSE from JNTU Hyderabad, and completed his M.Tech (CSE) in CSE from JNTU Hyderabad, he is working as Assistant Professor in CSE dept at Brilliant Institute of Engineering and Technology, Hyderabad, Telangana, India, having 09 years of experience. Creating new ideas to students and implementing on students. His areas of interest DBMS, JAVA, C++, etc.

Dr. CH. VENKATESWARA RAO has obtained his Ph.D. in Big data Analytics from VSSOP University, UP and M.Tech degree in Computer Science & Engineering from VIT University, Vellore, Tamilnadu. His area of interest includes Big data Analytics, Data mining, Computer Design. He has over 12 years of teaching experience in various reputed Institutions in Hyderabad, Telangana. Currently he is working as Associate Professor in Siddhartha Institute of Engineering and Technology, Hyderabad, Telangana. He has qualified GATE four times. He has one Scopus Indexed Journal, Five UGC Journals and One Web of science Journal. Two of his Patent proposals have been published in the Patent Journal and one Project proposal in the Sponsorship of MHRD are under progress.

PREFACE

This book is designed for use in courses on A Conceptual Theory on Relational Database Management System at the undergraduate/postgraduate level, particularly designed for the structured curriculum of Bachelor of Technology and Bachelor of Engineering – Computer science & Engineering

Although the contents of the book follows the essential content of complete concepts of A Conceptual Theory on Relational Database Management System is sufficiently broad in scope and rigorous in coverage to satisfy any undergraduate and postgraduate requirements in the field of IT/CSE.

The book is organized into five sections:

Chapter 1, describes about the database system and data modeling, characteristics & components of DBMS, functions of DBMS, evolution of Database models, types of data bases and data models, relational data model, table structure, keys, ER diagram & normalization, database administration etc.,

Chapter 2, covers the MySQL administration & database design, describes how working with MySQL, MySQL data types, data definition commands, data manipulation language, data control language, transaction control language, data query language, MySQL operators & built in functions etc.,

Chapter 3, delivers the MySQL performance tuning, indexes & sequences, joins & unions, views, user & transaction management, grant privileges etc.,

Chapter 4, covers the introduction to storage engines, types of storage engines, stored procedures & functions, trigger & cursor, MySQL optimization etc.,

Chapter 5, includes the data warehousing & introduction to big data, data warehousing, functions of data warehouse, applications of data warehouse, data mining concepts, introduction to big data, characteristics of big data, types of data stores in NoSQL etc.,

DIRECTOR

Educational Society's Group
of Institutions-Integrated Campus (70)
Abdullapur (V), Abdullapurmet (M),
R.R. Dist-501505.

The analyses and discussion, covering these five sections in the various chapters of this book, are based on the readings recommended for this course. However, wherever required, we have supplemented from other sources reference. A select bibliography is given at the end of the book for reference to the authors cited in the text

I hope this thoroughly book on A Conceptual Theory on Relational Database Management System will prove handy and useful to students and teachers on the same.

Acknowledgment

First and foremost, praises to God, the Almighty, for his immense shower of blessing and kindness throughout the work and has allowed us to finish successfully.

We are sincerely grateful to our Institution Management, Director, Principal, Faculties, Students, and all our family members for providing continuous support and motivation during the work.

We would also like to take the opportunity to express our special thanks of gratitude to the publisher for providing a golden chance by giving us the most awaited platform to showcase our novel work.

Any attempt at any level can't be satisfactorily completed without our students' collaborative effort, resulting in our Book being unique

Author's Profile

Dr. N. LINGA REDDY, currently working as Assistant Professor in BRILLIANT INSTITUTE OF ENGINEERING AND TECHNOLOGY, Abhalapuram, Telangana. He received his doctoral degree in computer science engineering from HIRALAYA University Anantnag, Pradesh in Oct 2021. He received his master and bachelor degree in CSE from JNTU University, Hyderabad. He has served in academic sectors from 12+ years. He has published research papers in various reputed peer reviewed journals.

Mrs. CH. SANGEETHA is having 5 years of teaching Experience and currently serving as Assistant Professor in Computer Science and Engineering Department at the Kasturba Nagarjuna College of Engineering and Research, Abhalapuram, Telangana, and mentoring experience for B.Tech graduates. She has published 1 paper in national journal. She completed her Masters from JNTU. She gave her services to 1 affiliated colleges of Jawaharal Nehru Technological University before joining in the team of Kasturba Nagarjuna College of Engineering and Research.

Mrs. A. DURGABHAVANI is having 7 years of teaching Experience and currently serving as Assistant Professor in Computer Science & Engineering Department at Brilliant Group school, International Societies Group of Institutions, Abhalapuram, Telangana. She completed M.Tech (CSE) from JNTU University, Hyderabad.

Dr. S. KRISHNA MOHAN RAO has received his PhD in Computer Science and Engineering from Osmania University. He is working as Professor and IQAC coordinator in Siddhartha Institute of Engineering and Technology. He has industry and teaching experience. Served as Principal for Gemath Institute of Technology in Bhisraacheru and also for Siddhartha Institute of Engineering and Technology. To his credit has published more than 50 papers in both national and international. He is life member for ISTE, IETE and CSI. He has also reviewer for many national and international journals.

PREFACE

This book is designed for use in courses on A beginners Guide to problem solving and programming in Python at the undergraduate/postgraduate level, particularly designed for the structured curriculum of Bachelor of Technology and Bachelor of Engineering – Computer science & Engineering

Although the contents of the book follows the essential content of complete concepts of A beginners Guide to problem solving and programming in Python is sufficiently broad in scope and rigorous in coverage to satisfy any undergraduate and postgraduate requirements in the field of IT/CSE.

The book is organized into five sections:

Chapter 1, describes about the computational strategies, Problem solving techniques, notations of an algorithm ie., Pseudocode, Flowchart, basics of python programming which covers the variables, identifiers, arithmetic operator, values & type, python statement, operator, operator precedence, expressions & statements, functions etc.,

Chapter 2, covers the data types in python, list, characteristics, string, python dictionary, modules, packages, libraries etc.,

Chapter 3, delivers the file handling & exception handling, data files in python, file operation, file methods & python exception handling etc.,

Chapter 4, covers about the python modules, listing of modules, variables in a modules, modules loading & execution, frameworks in python etc.,

Chapter 5, includes the object oriented programming in python, OOPS concept, class, inheritance, polymorphism, encapsulation, overriding methods, constructor and abstraction in python, along with some illustration programs etc.,

The analyses and discussion, covering these five sections in the various chapters of this book, are based on the readings recommended for this course. However, wherever required, we have supplemented from other sources reference. A select bibliography is given at the end of the book for reference to the authors cited in the text

Author's Profile

Mr. V VENKANNA, Assistant Professor, Department of Electronics and Communication Engineering, he is having more than 6 years of teaching experience in Brilliant Grammar School Educational Society's Group of Institutions. He has obtained M.Tech. in VLSI system Design from JNTU Hyderabad and B.Tech. in ECE from JNTU Hyderabad. He has published 6 International, National journals.

Mr. M.VINOD KUMAR, M.Tech (Electronics and Communication Engineering), is the Head of the Department of Electronics and Communication Engineering and Associate Professor with 10+ years of experience. He has been serving more than 6 years for BRILLIANT INSTITUTE OF ENGINEERING AND TECHNOLOGY. He has done post graduation from Jawaharlal Nehru Technological University, Hyderabad. In his 10 years of experience he published 2 national articles in Journals. He has successfully conducted 4 Refresher Courses / Workshops and has attended many Faculty Development Programs. He has Guided Under Graduate Level and Post Graduate Level Students for their projects. In his tenure, he has successfully completed 60+ projects on various domains. His areas of interests include Electronic Devices And Circuits, Analog and Digital Communications, Digital System Design, Optical Communications, Mobile Communications and Networks, Satellite Communications, Microwave Engineering, Microprocessors and Microcontrollers, Embedded Systems, VLSI Design, Linear Integrated Circuits And Applications, etc...

Mr. RAVICHANDAR. L working as Assistant professor in Kasireddy Narayan reddy college of engineering and research. He has more than 3 years of teaching experience, received his B.Tech degree in Electronics and Communication Engineering in 2006 from JNTU University, Hyderabad. He completed his M.Tech in ES in 2010 from affiliated college of JNTU. He guided more than 12 B.Tech projects and M.tech projects. He participated in 8 faculty development programs and 5 workshops. He is good event and tour planner. He published one paper in national journals

Dr. RAMESH BABU N is working as Associate Professor in Department of Electronics and Communication Department in Siddhartha Institute of Engineering & Technology, Ibrahimpatnam, with an overall teaching experience of 6 years. Completed Ph.D. in the area of Wireless communication, from Sun Rise University, Rajasthan. Completed her Master's degree with specialization in Electronics and mobile communications from University of Glamorgan U.K and B.Tech from JNTU Hyderabad in the year 2008. Published 7+ papers in National and International journals and published papers in international conferences, 1 Scopus Journal. I had filed 1 patent. I attended and also conducted many workshops and conferences. I am the members in IETE, MISTE, IRED, IAENG

Content

1	Introductory Concepts	1
1.1	Introduction	1
1.1.1	Evolution of Mobile Radio Communications	1
1.1.2	Present Day Mobile Communication	3
1.2	Fundamental Techniques	4
1.2.1	Radio Transmission Techniques	5
1.3	How a Mobile Call is Actually Made?	6
1.3.1	Cellular Concept	7
1.3.2	Operational Channels	7
1.3.3	Making a Call	7
1.4	Future Trends.....	9
1.5	References.....	10
2	Modern Wireless Communication Systems	11
2.1	1b1G: First Generation Networks.....	11
2.2	2G: Second Generation Networks.....	11
	TDMA/FDD Standards.....	12
	CDMA/FDD Standard.....	12
	2.5G Mobile Networks.....	12
2.3	3G: Third Generation Networks.....	12
2.3.1	3G Standards and Access Technologies.....	13
2.3.2	3GW-CDMA(UMTS).....	14
2.3.3	3GCDMA2000.....	16
2.3.4	3GTD-SCDMA.....	17
2.4	Wireless Transmission Protocols.....	18
2.4.1	Wireless Local Loop (WLL) and LMDS.....	18
2.4.2	Bluetooth.....	18
2.4.3	Wireless Local Area Networks(W-LAN).....	19

2.4.4 WiMax	20
2.4.5 Zig bee.....	20
2.4.6 Wibree	20
2.5 Conclusion: Beyond3GNetworks.....	21
2.6 References	22

3 The Cellular Engineering Fundamentals	23
--	-----------

3.1 Introduction.....	23
3.2 What is a Cell?	23
3.3 Frequency Reuse.....	24
3.4 Channel Assignment Strategies.....	26

3.4.1 Fixed Channel Assignment(FCA).....	26
3.4.2 Dynamic Channel Assignment(DCA)	27

3.5 Handoff Process	28
---------------------------	----

3.5.1 Factors Influencing Handoffs.....	29
3.5.2 Handoffs In Different Generations.....	31
3.5.3 Handoff Priority.....	31
3.5.4 A Few Practical Problems in Handoff Scenario	31

3.6 Interference & System Capacity	33
--	----

3.6.1 Co-channel interference(CCI).....	33
3.6.2 Adjacent Channel Interference(ACI).....	36

3.7 Enhancing Capacity And Cell Coverage	37
--	----

3.7.1 The Key Trade-off	37
3.7.2 Cell-Splitting	39
3.7.3 Sectoring	42
3.7.4 Microcell Zone Concept	44

3.8 Trunked Radio System.....	46
-------------------------------	----

3.9 References	51
----------------------	----

4 Free Space Radio Wave Propagation	52
--	-----------

4.1 Introduction.....	52
4.2 Free Space Propagation Model	53

4.3 Basic Methods of Propagation.....	55
4.3.1 Reflection	55
4.3.2 Diffraction.....	56
4.3.3 Scattering.....	56
4.4 Two Ray Reflection Model.....	57
4.5 Diffraction	62
4.5.1 Knife-Edge Diffraction Geometry	63
4.5.2 Fresnel Zones: the Concept of Diffraction Loss	65
4.5.3 Knife-edgediffractionmodel	68
4.6 Link Budget Analysis.....	68
4.6.1 Log-distance Path Loss Model	68
4.6.2 Log Normal Shadowing	69
4.7 Outdoor Propagation Models	70
4.7.1 Okumura Model	70
4.7.2 Hata Model	71
4.8 Indoor Propagation Models	72
4.8.1 Partition Losses Inside a Floor(Intra-floor)	72
4.9 Partition Losses Between Floors (Inter-floor)	72
4.10 Log-distance Path Loss Model.....	72
Summary	73
References	74
5 Multipath Wave Propagation and Fading	75
5.1 Multipath Propagation.....	75
5.2 Multipath & Small-Scale Fading	75
5.2.1 Fading	75
5.2.2 Multipath Fading Effects.....	75
5.2.3 Factors Influencing Fading	76
5.3 Types of Small-Scale Fading.....	76
5.3.1 Fading Effects due to Multipath Time Delay Spread.....	76
5.3.2 Fading Effects due to Doppler Spread	77

5.3.3 Doppler Shift.....	78
5.3.4 Impulse Response Model of a Multipath Channel	80
5.3.5 Relation Between Bandwidth and Received Power.....	82
5.3.6 Linear Time Varying Channels(LTV)	84
5.3.7 Small-Scale Multipath Measurements.....	86
5.4 Multipath Channel Parameters	88
5.4.1 Time Dispersion Parameters.....	88
5.4.2 Frequency Dispersion Parameters	90
5.5 Statistical models formultipath propagation	91
5.5.1 NLoS Propagation: Rayleigh Fading Model	92
5.5.2 LoS Propagation: Rician Fading Model	95
5.5.3 Generalized Model: Nakagami Distribution.....	96
5.5.4 Second Order Statistics.....	97
5.6 Simulation of Rayleigh Fading Models.....	96
5.6.1 Clarke's Model: without Doppler Effect.....	99
5.6.2 Clarke and Gans' Model: with Doppler Effect	99
5.6.3 Rayleigh Simulator with Wide Range of Channel Conditions	100
5.6.4 Two-Ray Rayleigh Faded Model	100
5.6.5 Saleh and Valenzuela Indoor Statistical Model	100
5.6.6 SIRCIM/SMRCIM Indoor/Outdoor Statistical Models	101
Conclusion.....	101
References	102
6 Transmitter and Receiver Techniques	103
6.1 Introduction.....	101
6.2 Modulation	101
6.2.1 Choice of Modulation Scheme	103
6.2.2 Advantages of Modulation	104
6.2.3 Linear and Non-linear Modulation Techniques	104
6.2.4 Amplitude and Angle Modulation	105
6.2.5 Analog and Digital Modulation Techniques.....	106

6.3 Signal Space Representation of Digitally Modulated Signals	106
6.4 Linear Modulation Techniques	106
6.4.1 Amplitude Modulation (DSBSC)	106
6.4.2 BPSK	109
6.4.3 QPSK	109
6.4.4 Offset-QPSK	111
6.4.5 $\pi/4$ DQPSK	111
6.5 Line Coding	112
6.6 Pulse Shaping	114
6.6.1 Nyquist pulse shaping	114
6.6.2 Raised Cosine Roll-Off Filtering	115
6.6.3 Realization of Pulse Shaping Filters	116
6.7 Nonlinear Modulation Techniques	116
6.7.1 Angle Modulation (FM and PM)	117
6.7.2 BFSK	118
6.8 GMSK Scheme	120
6.9 GMSK Generator	121
6.10 Two Practical Issues of Concern	123
6.10.1 InterChannel Interference	123
6.10.2 Power Amplifier Non linearity	123
6.11 Receiver performance in multipath channels	124
6.11.1 Bit Error Rate and Symbol Error Rate	125
6.12 Example of a Multicarrier Modulation: OFDM	126
6.12.1 Orthogonality of Signals	127
6.12.2 Mathematical Description of OFDM	127
6.13 Conclusion	130
6.14 References	131
7 Techniques to Mitigate Fading Effects	132
7.1 Introduction	132
7.2 Equalization	133

7.2.1 A Mathematical Frame work.....	134
7.2.2 Zero Forcing Equalization.....	135
7.2.3 A Generic Adaptive Equalizer	138
7.2.4 Choice of Algorithms for Adaptive Equalization	138
7.3 Diversity.....	140
7.3.1 Different Types of Diversity	141
7.4 Channel Coding	147
7.4.1 Shannon's Channel Capacity Theorem	147
7.4.2 Block Codes.....	148
7.4.3 Convolutional Codes	157
7.4.4 Concatenated Codes.....	157
7.5 Conclusion	160
7.5.1 References	161
8 Multiple Access Techniques	162
8.1 Multiple Access Techniques for Wireless Communication.....	162
8.1.1 Narrowband Systems	163
8.1.2 Wideband Systems.....	163
8.2 Frequency Division Multiple Access.....	164
8.2.1 FDMA/FDD in AMPS	164
8.2.2 FDMA/TDD in CT2	164
8.2.3 FDMA and Near-Far Problem	165
8.3 Time Division Multiple Access.....	165
8.3.1. TDMA/FDD in GSM	166
8.3.2 TDMA/TDD in DECT	166
8.4 Spread Spectrum Multiple Access.....	167
8.4.1 Frequency Hopped Multiple Access (FHMA)	167
8.4.2 Code Division Multiple Access	167
8.4.3 CDMA and Self-interference Problem.....	168
8.4.4 CDMA and Near- Far Problem	169
8.4.5 Hybrid Spread Spectrum Techniques	169

8.5 Space Division Multiple Access	170
8.6 Conclusion.....	166
8.7 References	167

Author's Profile

Mr. K. BHEEMA is having more than 15 years of teaching Experience and currently serving as Assistant Professor in Electrical & Electronics Engineering Department at Kasireddy Narayanreddy College of Engineering and Research, Abdullapurmet, Telangana. He completed MTech from JNTU University Hyderabad affiliated College. Mr. K. BHEEMA gave his services to PRRM Engineering College before joining in the team of Kasireddy Narayanreddy College of Engineering and Research.

Mr. LAVUDYA NADAM received the B.Tech degree in electrical & electronics engineering from Jawaharlal Nehru Technological University, Hyderabad, India, in 2007 and the M.Tech. (P.E) degree from Jawaharlal Nehru Technological University, Hyderabad, India, in 2010. Since September 2018, he has been pursuing the Ph.D. degree at Osmania University, Hyderabad, India. From July 2015 to till the date, he was working as a Assistant Professor in electrical & electronics engineering. His interests are in Electrical Circuits & Networks, and power electronics, distributed generation, renewable energy systems & Microgrid its applications.

Mr. D. RAMESH is having more than 13 years of teaching Experience and currently serving as Associate Professor in Electrical & Electronics Engineering Department at Brilliant Grammar School Educational Society's Group of Educational Institutions-IC, Abdullapurmet, Telangana. He completed M.Tech from JNTU college of Engineering (A) Anantapur subsequently (Then Affiliated to JNTUA Anantapur). Mr.D. RAMESH gave his services to Nova College Of Engineering And Technology before joining in the team of Brilliant Grammar School Educational Society's Group Of Educational Institutions-IC. He has 2 years of Industrial experience at Bhagyanagar Electricals Limited, Kukatpally, Hyderabad. He has guided more than 50 Projects under UG and PG level. He is been an editorial board member in various Journals and reviewed various articles. He has published more than Seventeen research presented papers in International, journals, National Conferences. His journey is embellished with responsibilities and awards which are the shining examples of his commitment and caliber. His teaching career is replete with handling several important responsibilities. He has greatly contributed for the roles of officer in charge of examination branch, head of the department, electrical.

Dr. A. SATEESH KUMAR has obtained his PhD Degree in Jodhpur National University, Jodhpur. M.Tech degree in Power Electronics from JNTU Hyderabad, Telangana and B Tech degree in JNTU Hyderabad, Telangana. His area of Research Includes Power Distribution Systems Study & Power Quality Improvement Using FACTS Devices in Distribution systems. He has over 13 years of teaching experience in various reputed Institutions in Telangana. Currently he is working as Professor in Siddhartha Institute of Engineering and Technology, Ibrahimpatnam, Telangana.

SYLLABUS

UNIT –I (A) ELECTROSTATICS (B) D C CIRCUITS

(a) ELECTROSTATICS

Electric Flux-Electric Flux Density-electric Field Intensity-electric potential-Coulomb's laws of electrostatics concept of capacitance - Relationship between Voltage, Charge and capacitance – energy stored in a capacitor – capacitors in series and in parallel –Problems in above topics.

(b) D C CIRCUITS

Basic concepts of current, emf, potential difference, resistivity, temperature coefficient of resistance – Ohm's Law –application of Ohm's law – work, power energy – relationship between electrical, mechanical and thermal units – resistance – series circuits – parallel and Series parallel circuits – Kirchoff's laws –Problems in the above topics.

UNIT-II CIRCUIT THEOREMS

Mesh equations – Nodal equations – star/delta transformations –Superposition theorem – Thevenin's theorem – Norton's theorem – Maximum power transfer theorem. (Problems in DC circuits only)

UNIT-III SINGLE PHASE CIRCUITS

'j' notations – rectangular and polar coordinates – Sinusoidal voltage and current – instantaneous, peak, average and effective values – form factor and peak factor(derivation for sine wave) – pure resistive, inductive and capacitive circuits – RL, RC, RLC series circuits – impedance –phase angle – phasor diagram – power and power factor – power triangle – apparent power, active and reactive power – parallel circuits (two branches only) - Conductance, susceptance and admittance –problems on all above topics.

UNIT-IV RESONANT CIRCUITS

Series resonance – parallel resonance (R,L &C; RL&C only) – quality factor – dynamic resistance – comparison of series and parallel resonance –Problems in the above topics - Applications of resonant circuits.

DIRECTOR
Brilliant Grammar School
Educational Society's Group
of Institutions-Integrated Campus (TQ)
Abdullapur (V), Abdullapurmet (M),
R.R. Dist-601005.

UNIT-V THREE PHASE CIRCUITS

Three phase systems-phase sequence –necessity of three phase system–concept of balanced and unbalanced load - balanced star & delta connected loads – relation between line and phase voltages and currents –phasor diagram –three phase power and power factor measurement by single wattmeter and two wattmeter methods –Problems in all above topics.

R.R. Dist-591505.

Author's Profile

Mr. D. MADAVA REDDY is having more than 13 years of teaching Experience and currently serving as Associate Professor in MECHANICAL Engineering Department at the Kasireddy Narayana Reddy College of Engineering and Research, Abdullapurmet, Telangana, and mentoring experience for B.Tech graduates. He has published 13 papers in national journals. He completed his Masters from National institute of technology, Allahabad. He gave his services to 2 affiliated colleges of Jawaharlal Nehru Technical University before joining in the team of Kasireddy Narayanreddy College of Engineering and Research. He worked at Applied computer services limited and Quantum age tech Solutions for more than 2Years.

Mr. ALAKUNTLA YADAIHAH, Assistant Professor, Department of MECHANICAL ENGINEERING, he is having more than 7 years of teaching experience in Brilliant Grammar School Educational Society's Group of Institutions. He has obtained M.Tech. In THERMAL ENGINEERING from JNTU Hyderabad and B.Tech. In MECHANICALENGINEERING from JNTU Hyderabad. He has published 4 International, National journals.

Mr. D. MOHAN currently is working as ASSISTANT PROFESSOR in MECHANICAL ENGINEERING at BRILLIANT INSTITUTE OF ENGINEERING AND TECHNOLOGY, Abdullapur (V), Abdullapurmet (M), R.R Dist-501505 Telangana. He completed M.Tech from JNTUH affiliated College and serving more than 6 years for BRILLIANT INSTITUTE OF ENGINEERING AND TECHNOLOGY, gave his services to one affiliated colleges of Jawaharlal Nehru Technological University before joining in the team of BRIL. In his 7 years of experience has Guided 20+ Under Graduate Level Students for their projects on various domains.

Dr. ESHWAR PRASAD has done B.Tech., M.Tech., PhD in Mechanical Engineering. He has a vast experience of more than 35 years experience in Teaching field. He served for JNTUH University. He has published more than 45 papers in international journals and international conferences and more than 33 publications in national journals and conference. He has Number of Session Chair, Keynote Speaker, Invited, Guest Lecture etc: 30 Number of Conferences/ Workshop/ Seminars Attended/ Presented:20 Professional Memberships: FIE, MISTE, IPE, IPENZ

Author's Profile

Mr. R. SURENDRARAO is having more than 10 years of teaching Experience and currently serving as Assistant Professor in Mechanical Engineering Department at Kasireddy Narayanreddy College of Engineering and Research, Abdullapurmet, Telangana, and mentoring experience for B.Tech graduates. He has published 8 papers in national journals. He completed M.Tech from Intel Engineering College affiliated to JNTU Anathapur. He gave his services to 1 affiliated college of JNTUA before joining in the team of Kasireddy Narayanreddy College of Engineering and Research.

Mr. CH.NAVEEN KUMAR currently working as ASSISTANT PROFESSOR in MECHANICAL ENGINEERING at BRILLIANT INSTITUTE OF ENGINEERING AND TECHNOLOGY, Abdullapur (V), Abdullapurmet (M), R.R Dist-501505 Telangana. He completed M.Tech from JNTUH affiliated College and serving more than 6 years for BRILLIANT INSTITUTE OF ENGINEERING AND TECHNOLOGY. He has Guided 18+ Under Graduate Level Students for their projects on various domains.

Mr. BEESAM NARSIMHA, Assistant Professor, Department of MECHANICAL ENGINEERING, he is having more than 10 years of teaching experience, currently working in Brilliant Grammar School Educational Society's Group of Institutions. He has obtained M.Tech. in ADVANCED MANUFACTURING SYSTEMS from JNTU Hyderabad and B.Tech. in MECHANICAL ENGINEERING from JNTU Hyderabad.

Prof S. L. NARSIMHA REDDY obtained in PhD in analysis on the performance of PEM fuel cell with multiphase flow and species transport using CFD FROM Veerabhadur Singh Purvanchal University, Jaunpur (UP) in the year 2011 and M.Tech from JNTU Anantapur in the year 2004. He has over 35 years of teaching experience. Currently he is working as Prof &HOD, Mechanical engineering, in Siddhartha institute of engineering and technology, Ibrahimpatnam, Ranga Reddy (Dist), Telangana. He has 4 Scopus indexed Journals & UGC Journals and one patent on his name.

PREFACE

The technological advancements to be depicted in the course called emerging trends was a challenging task and therefore it was decided to prepare a learning material with the involvement of industrial and academic experts for its uniformity in the aspect of delivery, implementation and evaluation.

Over the coming years, technological developments such as Robotics, IOT, Artificial intelligence, smart controls are likely to have a significant impact on the world of work and employment. Looking towards the era in Technological advancement, Mechanical / Automobile / Production Engineering offers addition of new Dynamic subjects and new versions of core subjects. Diploma Mechanical/Automobile/Production Engineers should be familiar with new technologies from the fields of Automobile Engineering, HVAC, Energy Management, Advanced Manufacturing Processes, Agriculture and Farm Machines and many more. This Dynamic course will give insight to the recent practices adopted by the Mechanical Industries and awareness of these techniques will enhance career opportunities of Diploma Mechanical / Automobile / Production Engineers.

Author's Profile

Mr. K. Mahesh currently providing service as Assistant Professor in Humanities and Sciences Department at Brilliant Grammar School Educational Society's Group of Institutions, Abdullapurmet, Telangana. He completed M.A English from Satavahana University affiliated college, SRR GOVT DEGREE AND PG college karimnagar. His teaching career is replete with handling several important responsibilities and 5 years of academic experience.

Mrs. M. Pravalika is having more than 10 years of teaching Experience and currently serving as Assistant Professor in Humanities & Sciences Department at Kasireddy Narayanreddy College of Engineering and Research, Abdullapurmet, Telangana. She completed MA from pdmavathi university tirupathi and BA from SK University affiliated College.

Mr. T. Raja Shekar, he is currently working with Brilliant Institute of Engineering and Technology, Abdullapur Met Hyderabad Telangana, he has overall 20 years of teaching experience he served as a Assistant Professor and in charge HOD of H & S department, apart from teaching he also instrumental in various committees in moulding the students career. He completed his post graduation in English from KU campus, MBA in HR from JNTUH and also PGDTE from OU. He has trained and Guided to UG Level and PG Level Students for their soft skill training and CRT training programs. His consistently putting his efforts for the betterment of students and institution.

Dr. Konidala Murali is presently working as an Associate Professor of English in Siddhartha Institute of Engineering and Technology, Ibrahimpatnam, Hyderabad. He was awarded Ph.D. from Hyderabad Central University, M. Phil Linguistics from P. S Telugu University, M.A Applied Linguistics from Hyderabad Central University and M. A English Literature from Acharya Nagarjuna University, Guntur. He has been working in several Engineering colleges for last 10 years. He has good experience in English language teaching and communication skills. He presented 2 International Papers and 6 National Papers and attended for FDP programmes in different Engineering colleges. And also attended 40 days workshop on 'Linguistic survey of India' in CILL, Mysore. He is a member of Telugu Linguistic Forum.

MESSAGE

In this era, English has become a global language for trade, culture, literature and Industry. Learning English is not an optional but a necessity. Minimum level of mastery over English Language is essential to be an effective communicator and presenter. As far as India is concerned, many students from regional medium, find very difficult to speak and write in English. Therefore, they don't have confidence in their studies when they reach tertiary level of education. This book helps you to study the spoken and written skills easily.

This book is designed as a reliable reference book on basic knowledge of English Language structure and grammar usage with a view to promote verbal ability mainly for beginners particularly for the students who are from Tamil medium.

Suggestions for improvement and corrections in this book are welcome.

Author's Profile

DR. J. VENUGOPAL, Professor of MBA presently working with Kasireddy Narayan Reddy College of Engineering & Research, (Brilliant Group of Technical Institutions), Affiliated to Jawaharlal Nehru Technological University, Hyderabad. He has qualified in Ph. D – Management Science & Ph. D – Economics and also qualified in Management with multiple specializations like HRM, Finance, Marketing & Intl. Business., from AIMA New Delhi; Personnel Management (Gold Medallist) – NIPM, Kolkata and Training and Development, (Best Award Holder for the Year 1995), ISTD, New Delhi. Also qualified in M. Com., (Taxation) Andhra Univ., Vizag; MA Sociology, Osmania Uni., Hyderabad; LLB, Osmania Uni., Hyderabad; M.Com., (Management Accountancy – Andhra Univ.,), M.Com – Management Accountancy, S.V. Uni., Tirupati; B.Lisc., S.V. Uni., Tirupati. He is also life member of various recognized professional bodies like NIPM-Kolkata, ISTD-New Delhi, ALUMINI – AIMA, New Delhi, IZ OR etc. He has also obtained various awards for his academic and research activities from various recognized professional bodies. He has also conferred with Social Scientist Award for his contribution from the recognized professional body

Mr. T. RAJU currently working as Assistant Professor in the ASSISTANT PROFESSOR in the BRILLIANT INSTITUTE OF ENGINEERING AND TECHNOLOGY, Abdullapurmet (M), R.R Dist-501505 Telangana, he has completed MBA from JNTUH from JNTUH affiliated College and presently pursuing Ph.D. from Annamalai since-2021. She has been serving more than 12 years for BRILLIANT INSTITUTE OF ENGINEERING AND TECHNOLOGY; Mr. T. RAJU gave his services to 2 affiliated colleges of Jawaharlal Nehru Technological University before joining in the team of BRIL. In his 12 years of experience he published 2 national articles in Journals. He has Guided Post Graduate Level Students for their projects. In his tenure, He has successfully completed 60+ projects on various domains.

Mr. M. ANAND is having 7 years of teaching experience and currently working as Assistant Professor in Humanities and Sciences Department at Brilliant Grammar School Educational Society's Group of Institutions-Integrated Campus, Abdullapurmet, Telangana. He had completed Master's Degree in Business Administration from JNTU-Kakinada.

DR. PRAKASH CHINTHIREDDY has obtained MBA Masters Degree in Human Resource Management from Kakatiya University, Warangal, and acquires M.com from Kakatiya University, Warangal. PhD in Business Management from Osmania University, Telangana. Thesis submitted in Human Resources Management. He has more than 13 years of Teaching experience in various levels at Business Management in colleges and institutions and currently working as a Professor of Business Administration Department at SIDDHARTHA INSTITUTE OF ENGINEERING & TECHNOLOGY, Ibrahimpatnam, and Telangana. He has attended workshops and faculty development programs in various levels. He has published more than twenty research articles in reputed International, National journals and presented papers in International and National Conferences.

Preface

This book " **Management Fundamental and Organizational Behavior** " is about achieving behavioral change in organizations. Based on scientifically validated principles, it provides a specific, practically applicable answer to the "how" question of behavioral change. This distinguishes this book from many other management books.

Management Fundamental and Organizational Behavior for short, is the field that deals with behavioral change in organizations. Some prefer to speak of "targeted behavioral influence". The author's approach is balanced between management and psychological perspective and is pedagogically enhanced with up-to-date illustrative examples, case studies, and assessment material.

It can be defined as the study of the way different individuals interact with each other in a group. The main objective of the study of this subject is to create a more efficient organization. The main logic behind the study of organizational behavior is that the various scientific methods can be implemented successfully in the management of workers. The different theories of organizational behavior are implemented for the human resource so that the performance, efficiency, and output can be maximized from individual group members. Existing literature on organizational behaviour is either lopsided or ignores the management dimensions.

SYLLABUS

UNIT I INTRODUCTION TO EMBEDDED SYSTEM DESIGN

Complex systems and microprocessors- Embedded system design process -Design example: Model train controller- Design methodologies- Design flows - Requirement Analysis - Specifications- System analysis and architecture design - Quality Assurance techniques - Designing with computing platforms - consumer electronics architecture - platform-level performance analysis.

UNIT II ARM PROCESSOR AND PERIPHERALS

ARM Architecture Versions - ARM Architecture - Instruction Set - Stacks and Subroutines - Features of the LPC 214X Family - Peripherals - The Timer Unit - Pulse Width Modulation Unit - UART - Block Diagram of ARM9 and ARM Cortex M3 MCU.

UNIT III EMBEDDED PROGRAMMING

Components for embedded programs- Models of programs- Assembly, linking and loading - compilation techniques- Program level performance analysis - Software performance optimization - Program level energy and power analysis and optimization - Analysis and optimization of program size- Program validation and testing.

UNIT IV REAL TIME SYSTEMS

Structure of a Real Time System -- Estimating program run times - Task Assignment and Scheduling - Fault Tolerance Techniques - Reliability, Evaluation - Clock Synchronization.

UNIT V PROCESSES AND OPERATING SYSTEMS

Introduction - Multiple tasks and multiple processes - Multirate systems- Preemptive real-time operating systems- Priority based scheduling- Interprocess communication mechanisms - Evaluating operating system performance- power optimization strategies for processes - Example Real time operating systems-POSIX-Windows CE. Distributed embedded systems - MPSoCs and shared memory multiprocessors. - Design Example - Audio player, Engine control unit - Video accelerator.

Table of Content

UNIT NO.	DESCRIPTION	PAGE NO.
1.	INTRODUCTION TO EMBEDDED SYSTEM DESIGN	
1.1	Complex System Microprocessor	10
1.2	The Embedded System Design Process	14
1.3	Design Example: Model Train Controller	20
1.4	Design Methodologies	22
1.5	Design Flows	25
1.6	Requirement Analysis	30
1.7	Specifications	32
1.8	System Analysis and Architecture Design	33
1.9	Quality Assurance Techniques	35
1.10	Designing with Computing Platforms	36
1.11	Consumer Electronics Architecture	40
1.12	Platform-level Performance Analysis	43
2.	ARM PROCESSOR AND PERIPHERALS	
2.1	ARM Architecture Evolution	48
2.1.1	ARM Architecture Versions	49
2.2	ARM Architecture	51
2.2.1	Introduction	51
2.2.2	The ARM Architecture Profiles	54
2.3	ARM Instruction Set	57
2.3.1	ARM Instruction Set Architecture	57
2.4	Stacks and Subroutines	58
2.4.1	Stack	61
2.4.2	Stack types	61
2.5	Features of LPC214X family	62
2.5.1	Architecture Block Diagram of LPC2148	64

UNIT NO.	DESCRIPTION	PAGE NO.
2.6	Peripherals	66
2.7	Timer/Counter in Embedded System	70
2.8	Introduction to PWM	74
	2.8.1 Ways to generate PWM	77
2.9	UART	77
	2.9.1 Steps of UART transmission	83
2.10	ARM Cortex M3	87
	2.10.1 Features of ARM CortexM3	87
	2.10.2 ARM CortexM3 Architecture	89
2.11	ARM Cortex M3MCU	91
3.	EMBEDDED PROGRAMMING	
3.1	Components for Embedded Programming	93
	3.1.1 State Machines	93
	3.1.2 Circular Buffers and Steam-Oriented Programming	95
	3.1.3 Queues	97
3.2	Models of Programs	98
	3.2.1 Data Flow Graphs	99
	3.2.2 Control/Data Flow Graphs	101
3.3	Assembly, Linking and Loading	103
	3.3.1 Assemblers	104
	3.3.2 Linking	108
3.4	Compilation Techniques	109
	3.4.1 The Compilation Process	109
	3.4.2 Basic Compilation Methods	110
	3.4.3 Compiler Optimizations	113

UNIT NO.	DESCRIPTION	PAGE NO.
3.5	Program Level Performance Analysis	118
3.5.1	Elements of Program Performance	119
3.5.2	Measurement- Driven Performance Analysis	120
3.6	Software Performance Optimization	122
3.6.1	Loop Optimizations	122
3.6.2	Cache Optimizations	124
3.7	Program Level Energy and Power Analysis and Testing	125
3.8	Analysis and Optimization of Program Size	126
3.9	Program Validation and Testing	127
3.9.1	Clear-Box Testing	128
3.9.2	Black- Box Testing	132
3.9.3	Evaluating Functional Tests	133
4.	REAL TIME SYSTEMS	
4.1	Introduction	134
4.2	Structure of a Real Time Systems	134
4.3	Estimating Program Run Times	136
4.3.1	Analysis of Source Code	137
4.3.2	Accounting for Pipelining	139
4.3.3	Cache	140
4.3.4	Virtual Memory	141
4.4	Task Assignment and Scheduling	142
4.4.1	Scheduling Algorithms	143
4.4.2	Multiprocessor Scheduling	145
4.4.3	Classical Uniprocessor Scheduling Algorithms	147

UNIT NO.	DESCRIPTION	PAGE NO.
4.4.4	Rate-Monotonic Scheduling Algorithm	148
4.4.5	Earliest-Deadline-First Scheduling	151
4.4.6	Uniprocessor Scheduling of Iris Tasks	153
4.4.7	Multiprocessor Scheduling	156
4.5	Fault Tolerance Techniques	159
4.5.1	Causes Failures	159
4.5.2	Fault Types	160
4.5.3	Fault Detection	163
4.5.4	Fault and Error Containment	163
4.5.5	Redundancy	165
4.6	Reliability Evaluation Techniques	166
4.6.1	Obtaining Parameter Values	166
4.6.2	Obtaining Device-Failure Rates	166
4.6.3	Measuring Error-Propagation Time	168
4.6.4	Reliability Models for Hardware Redundancy	169
4.6.5	Fault Latency	172
4.7	Clock Synchronization	172
4.7.1	Synchronization Problem	175
4.7.2	Temporal Synchronization	175
4.7.3	Issues For Synchronization	177
4.7.4	Propagation Time and Read Errors	177
4.7.5	Synchronization Skew	179
4.7.6	Hardware Synchronization	180
4.7.7	Software Techniques	181
4.7.8	Hybrid Synchronization	182

UNIT NO.	DESCRIPTION	PAGE NO.
5.	PROCESSES AND OPERATING SYSTEMS	
5.1	Multiples Tasks and Multiple Process	184
5.2	Multirate System	186
	5.2.1 Timing Requirements on Processes	186
	5.2.2 CPU Metrics	188
5.3	Preemptive Tasks Real-Time Operating Systems	190
	5.3.1 Preemption	190
	5.3.2 Priorities	191
5.4	Priority- Based Scheduling	191
	5.4.1 Rate-Monotonic Scheduling	193
	5.4.2 Earliest- Deadline First Scheduling	196
	5.4.3 RMS Vs EDF	198
	5.4.4 Priority Inversion	199
5.5	Interprocess Communication Mechanisms	200
	5.5.1 Shared Memory Communication	200
	5.5.2 Message Passing	201
	5.5.3 Signals	202
	5.5.4 Mailboxes	203
5.6	Example Real Time Operating System	204
	5.6.1 POSIX	204
	5.6.2 Windows CE	209
5.7	Evaluating Operating System Performance	212
5.8	Power Optimization strategy for Processes	215
5.9	Distributed Embedded Architectures	219
5.10	MPSoCs Shared Memory Multiprocessor	222
5.11	Audio Player	224
5.12	Engine Control Unit	226
	5.12.1 Theory of Operation and Requirements	226
	5.12.2 Specification	227
	5.12.3 System Architecture	228
5.13	Design a Video Accelerator	230
