3. MAINTENANCE AND UTILIZATION OF LIBRARY

The library staff is clearly instructed in the care and handling of library documents, particularly during processing, shelving and conveyance of documents. The following steps need to be taken: Bound volumes are not to be sorted out from their foedts—this process weakens the binding. Shelves should not be fully packed. A too-full shelf can crack spines and cause Damage when a reader tries to remove a volume. Huge volumes need to be kept flat. Dust should not be allowed to deposit on the documents because the collection of dust causes staining of documents and promote chemical and biological problems. Cleaning and using vacuum should be done regularly and carefully. Magnetic discs or documents containing disc(s) should not be kept open or near any magnetic or electric equipment, i.e. tape recorders, air- conditioners. etc. such materials should be kept in a dust-free, temperature and humidity-controlled room. Proper pest management is done to minimize the problems caused by insects, Proper cleaning, fustigation and exposure to sunlight to the documents are done to reduce the effect of insects in the library. Repellents are used to save materials from Rats,
