### **2. Motivating Startups:**

Following the footsteps of the policy drafted by the AICTE, BRIG has a policy of promoting Start-Ups in its academic environment. Students are introduced to this policy through the First Year Induction programmes. Start-up Policies play a vital role in the economic and social development of a nation. In developing economies, these policies extend support to entrepreneurs and startups in overcoming the numerous barriers while trying to promote their start-ups. Institution strongly believes that technical education institutes play an imperative role in shaping the Start up movement of a nation. We also have college students who have taken their business ideas to the next level and started out on their own as entrepreneurs.

### **3. Innovative Teaching Pedagogy:**

BRIG adopted innovative teaching pedagogy using Smart Classrooms to help teachers in delivering the concept better, and produce more meaningful learning experiences by using audio/visual aids from various sources. A number of students work in groups on carefully designed guided inquiry questions. Role Plays are an effective method of getting the message across. Students take on the roles of some phenomena, such as part of an ecosystem, to demonstrate the lesson in an interesting and immediate manner. Easy way for instructors to intellectually engage and involve students as active participants in a lecture. Students are encouraged to participate in an activity that lets them work directly with the material.
