DEPARTMENT OF CIVIL ENGINEERING

Date: 11-10-2023

To,
P.NAVEEN,
Arjun College of Engineering & Technology,
Hyderabad.

Sub: Request for conducting the one week FDP program on Environmental and Water Resource Modeling and Management for Civil faculty – Reg.

Respected Sir,

The Department of Civil Engineering is proposing to conduct the one week Faculty Development Program on **WASTE WATER TREATMENT AND RECYCLING** for Civil faculty from 16-10-2023 to 21-10-2023. We believe that your extensive knowledge and experience in this field would greatly benefit our faculty members who are responsible for training our students in this topic. We are confident that with your guidance, our faculty members will be able to enhance their skills and knowledge in Environmental and Water Resource Modeling and Management, which in turn will positively impact the learning outcomes of our students.

We would be grateful if you could provide us with a detailed program, including the topics to be covered, the duration of each session, and any required materials. We also request you to provide us with a breakdown of the fees and any other expenses that may be involved.

We request for your kind acceptance to conduct this program with the above details.

Thanking You Sir

Signature of the resource person

To,
The Director,
Brilliant Grammar School Educational Society's Group of Institutions
Abdullapurmet

Subject: - Request regarding approval of one week Faculty Development Program for Civil Engineering faculty members and Resource allocation – Reg.

Respected Sir,

The Department of Civil Engineering is proposing to conduct a one-week faculty development program in our institution **WASTE WATER TREATMENT AND RECYCLING** topic. The programme will be held on our college premises from 14-11-2022 to 19-11-2022. I request for your kind approval to conduct this program and to provide the required resources to conduct the program.

We believe that your extensive knowledge and experience in this field would greatly benefit our faculty members who are responsible for training our students in this topic. We are confident that with your guidance, our faculty members will be able to enhance their skills and knowledge in Environmental and Water Resource Modeling and Management, which in turn will positively impact the learning outcomes of our students.

Thanking You,

Yours sincerely,

ABOUT COLLEGE

Brilliant Grammar School Educational Society's Group of Institutions - Integrated Campus (Faculty of Engineering & Faculty of Pharmacy) is a highly reputed Institute, established in 2009 with EAMCET Counseling Code BRIG. The college is under the dynamic leadership of the veteran Director, Dr. S PENIEL PAULDOSS, M.Tech (Thermal Engg.), Ph.D and Principal, Dr. CH. KANTLAM, M.Pharm (Pharmaceutical Chemistry), Ph.D, who have more than 17 years of experience in Technical Education. The Brilliant Group turned a golden leaf with the icon of technical education in Telangana who steered the Engineering education onto the echelons of national and international corridors, a versatile, sagacious genius Sri Kasireddy Narayan Reddy, an eminent and dynamic educationalist of our state, taking reigns as the Chairman of all the colleges in Brilliant Group of Technical Institutions.

He has been leading the Brilliant Grammar High Schools to be among the top-notch schools in our state since 1986. With the same motivation and dynamism, he established the Brilliant Group of Technical Institutions in 2009 and has been constantly upgrading them perpetually to promote a valued technical education in our state.

ABOUT THE DEPARTMENT OF CIVIL ENGINEERING

The department has strong focus in the research areas of transportation systems engineering, Geo Technical engineering, Ocean Engineering, Remote sensing & Construction technology and management. The department of civil

engineering has been functioning since 2009 with emphasis on fundamental theory and practice in civil engineering, keeping in view that current and continuously changing scenarios in this discipline. The department offers a full time B.Tech degree course in civil engineering. Apart from conducting academic programs, additional computer courses, seminars and workshops are conducted for the students as well the faculty. A number of consultancy works are also being carried out. The department was under the affiliation to JNTU, Hyderabad. The department has well experienced faculty. In addition to teaching and instruction, a faculty is also engaged in active research with an aim to generate innovative concepts & ideas or apply the existing technologies to new applications.

OUR VISION

To become a pioneering department in the country for teaching, research and consultancy in existing and emerging areas of civil engineering.

OUR MISSION

- To impart quality and real time education to contribute to the field of civil engineering..
- To impart soft skills, leadership qualities and professional ethics among the graduates to handle projects independently.
- To develop graduates to compete at the global level.
- To deal with the contemporary issues and to cater to the societal needs.

CIRCULAR

We are pleased to announce a One-Week Faculty Development Programme (FDP) on **WASTE WATER TREATMENT AND RECYCLING** which is scheduled to take place. The FDP will be conducted by distinguished experts from renowned institutions and will cover various topics. The programme will consist of interactive sessions, hands-on workshops, and case studies, providing you with a comprehensive understanding of the subject matter.

We encourage all faculty members to participate in this FDP, as it will not only benefit you but also enhance the academic excellence of our institution. The programme is open to all faculty members of our institution and there is no registration fee. Kindly note that participants will be provided with a certificate upon completion of the programme. Additionally, we request you to ensure your availability for the entire duration of the FDP.

Interested participants are requested to register on or before 15-10-2023 with coordinator to with your name, designation, department, and contact details. We look forward to your participation in this programme.

Duration: One week
 Date: 16-10-2023 to 21-10-2023
 Venue: Civil Engineering Department
 Registration Fee: Free

Course	:	Programme on WASTE WATER TREATMENT AND RECYCLING
Name of Resource Person	:	P.NAVEEN
Course Duration	:	16-10-2023 to 21-10-2023
Target Participants	:	Faculty of Department of Civil Engineering
Course	:	Training
Career Opportunity	:	Water resource engineer, Environmental consultant, Environmental analyst, Hydrologist, Environmental scientist, Climate modeler.

The learning outcomes of are: WASTE WATER TREATMENT AND RECYCLING

1 Understanding of Environmental Impact

Demonstrate knowledge of how wastewater treatment and recycling contribute to environmental sustainability by reducing pollution, conserving water, and protecting aquatic ecosystems.

2 Technical Competence

Apply engineering principles, advanced technologies, and scientific methods to design, operate, and optimize wastewater treatment and recycling systems.

3 Problem-Solving Skills

Identify and solve complex challenges related to wastewater management, including resource recovery, effluent quality, and energy efficiency.

4 Regulatory Compliance

Demonstrate understanding of and ability to comply with national and international standards, policies, and regulations for wastewater treatment and reuse.

SUMMARY REPORT

Date: 21.10.2023

The FDP Program is successfully conducted at Brilliant Grammar School Educational Society's Group Of Institutions-Integrated Campus, Abdullapurmet. The one-week FDP on **WASTE WATER TREATMENT AND RECYCLING** for Civil Engineering Faculty Members was conducted from

16-10-2023 to 21-10-2023, in the Civil Engineering Department. The program was organized by the institution with the aim of enhancing the knowledge and skills of the faculty members in Advanced applications of structural concrete in civil engineering, enabling them to impart the latest techniques to the students.

Wastewater treatment and recycling involve processes designed to remove contaminants from water that has been used in households, industries, and businesses, making it safe for disposal or reuse. This contributes to environmental protection, resource conservation, and sustainable water management.

Wastewater treatment and recycling are crucial for sustainable development, addressing water scarcity, and protecting environmental and public health. With advancements in technology and public awareness, the potential for wastewater reuse continues to grow globally.
