Indian Space Research Organization,

Jeedimetla.

**Subject:** Regarding permission for college students tone day visit

**Respected Sir/madam,**

Brilliant Grammar School Educational society's group of institutions is a leading institute in RangaReddy region, offering various educational courses in the Hyderabad city.

The students from second year Computer Science & Engineering, wish to attain one day visit at Indian Space Research Organization,jeedimetla.The students would be delighted to visit your esteemed organization and understand the working of it. Also the students will get a practical exposure of how a satellite works.

We would like to visit one day i.e., on 04-03-2022, for 105 students as per your convenience. It would be highly grateful if you could permit the students to attain the same.

Looking forward for a favorable response.

Thanking you in Anticipation.

**Subject:** Request for the field visit for CSE 2<sup>nd</sup> year students

Dear sir,

As a part of academic, we have to provide practical exposure to students. We the department of Computer science And Engineering, arranged an industrial visit for the B.Tech CSE(2<sup>nd</sup> year) students within two weeks to ISRO(Indian Space Research Organization) located at Jeedimetla,Hyderabad. By this we would like to develop practical exposure among the students.

Hence we request for your kind approval to arrange this field visit, to improve practical things through interaction, working methods, and employment practices of the students.

Thanking You,

DIRECTOR

## Report on Industrial Visit

A one day Industrial visit to Indian space Research Organization (ISRO), jeedimetla, was organized by Department of computer science and Engineering on 04-03-2022. It was a half day visit by 105 students of 4th semester along with 2 faculty members. ISRO Satellite Centre (ISAC) is the lead center of the Indian Space Research Organization (ISRO) responsible for design, development, assembly & integration of communication, navigation, remote sensing, scientific and small satellite missions. For the benefit of students there is a space exhibition center at ISAC. Our students were able to see the exhibition. Scientist Mr. H L Srinivasa explained each and every display unit kept for the exhibition. It includes the models of the first Indian satellite Aryabhata, APPLE, INSAT series etc. Satellites are basically of two types- Indian Remote Sensing (IRS) satellites and communication satellites. IRS-1A was the first remote sensing mission undertaken by the Indian Space Research Organization (ISRO). It was a part-operational, part-experimental mission to develop Indian expertise in satellite imagery. Students also gained knowledge about how television signals are broadcasted with the help of satellites. A working model was demonstrated. Various images of India taken at different angles from the satellites, for the purpose of geographical/weather study were seen. Latest images of moon obtained from satellite was also shown. Different electronic devices used in satellite and space communication were explained. The 'clean room' concept for assembling of satellites were shown to us. Currently scientists were working on Chandrayana 2 which will be launching in 2018. According to Mr. Srinivas, A robot will also be sent along with Chandrayana 2 for remote sensing and surveying. It was a great experience for the students. A video depicting the moon mission of 'Chandrayana' was also displayed. At last, Scientists answered many of the doubts which students had about satellite launching. The Industrial Visit was a great benefit for the students to directly understand about the various concepts of satellite and space missions done by ISRO.
