

## **Efforts to encourage students to participate in National/International competition like SIH, IDEATHON, etc..**

To create a contextual framework for further research, the Ministry of Education (MoE) and the All India Council for Technical Education (AICTE) are offering more than 1000 internships to students to explore Indian Knowledge Systems (IKS) for a period of two months. The interns will work on short research projects, activities/workshops, etc. Their progress will be monitored through the monthly report submitted by them and their mentor's feedback. The interns will be encouraged to continue to work with the experts and advance the area of research through further collaborations even after the completion of the internship programme. (<https://iksindia.org/>)

Hence, Brilliant Grammar School Educational Society's Group of Institutions- Integrated Campus is making efforts to **“encourage students to take-up internship and project work in Indian Knowledge System related Areas/Topics/Disaster Management”**.
